

QB CONTRACT

QB Contract has been developed to offer a cost-effective and stylish cubicle system using standard panel sizes that will adapt to all configurations. This hardwearing and robust system has already been used in a variety of installations including commercial, recreational and industrial sites. Available in a range of colours, QB Contract has been designed to give specifiers and contractors a fast and versatile budget washroom solution without compromising on choice and quality. QB Contract uses the same ironmongery and fittings normally found in top of the range cubicle systems. Installation couldn't be easier, with full instructions supplied with each cubicle and free technical support if required.

Special Features

- All components ex-stock.
- New textured finish MDF in choice of colours.
- Improved moisture resistant full panel construction.
- Durable 3mm profiled PVC edges.
- Anti-finger trap hinges.
- Emergency access lock assembly.
- Satin anodised aluminium ironmongery.
- Integrated Panel System available.
- Vanity units on request.
